

**AV000023**

**CONNECTION TECHNOLOGY • CABLE SOCKETS /CONNECTORS ONE-SIDED PRE-ASSEMBLED**

ipf cable sockets are used primarily for establishing the electrical connection of sensors. Their features are characterized by rugged design, the highest protection classes (IP67 | IP68 | IP69K) and, if desired, with 360° shielding. With the features: bus-ready, suitable for use with drag chains and robots, resistance to oil and chemicals, resistance to welding sparks, their resistance to cleaning agents or high-pressure and steam-jet cleaning, the expanded temperature range of up to +230°C, the rapid interconnection technology and special data transmission properties, the cable sockets meet all requirements in automation technology.

**MECHANICAL DATA**

Cable length	2 m
Housing material	Metal
Number of wires	10
Positioning of cable feed, field side	Straight
Positioning of cable feed, housing side	Straight
Suitable for trailing chain	Yes

**ELECTRICAL DATA**

Number of pins	12
Shielded	Yes
Type of cable	Multi-core
Type of electrical connection, field side	M23
Type of electrical connection, housing side	Free conductor end
Type of plug-in contact, field side	Female (socket)

**OTHER DATA**

Flame resistant	No
-----------------	----

**DIMENSIONAL DRAWING**

**INSTALLATION**

Mounting / Installation may only be carried out by a qualified electrician!

**DISPOSAL**

**SAFETY WARNINGS**

Before initial operation, please make sure to follow all safety instructions that may be provided in the product

information!

Never use these devices in applications where the safety of a person depends on their functionality.
